

Multi-Purpose Incubation Chamber

Multi-purpose incubation chamber

1. Large (for 20 sheets) 345 x 195 x 48mm
2. Small (for 10 sheets) 172 x 195 x 48mm

Incubation chamber sheets

Perfect humid environment

- Immunostaining.
- Microarray.
- Ochterlony immunoprecipitation.
- Fluorescent techniques.
- Colormetric enzyme techniques.
- Blood smears and other slide-based cytodiagnosics.
- More...

Intelligent Design

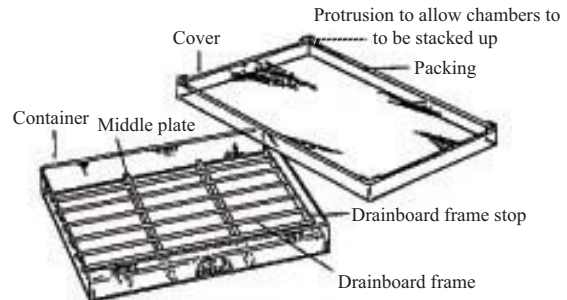

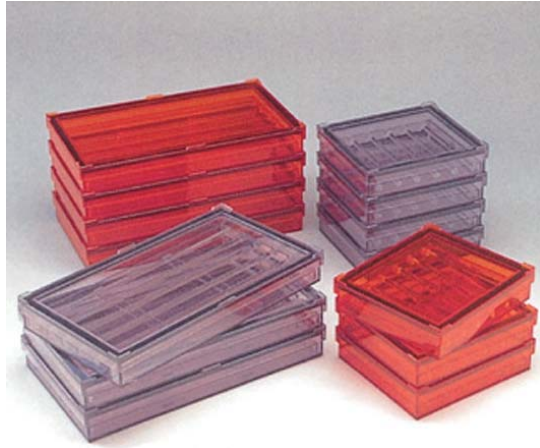

- Glass rods elevates slides from moisture source. Removable for easy cleaning.
- Interior humidified with moist filter paper.
- Black filter paper sheets make ideal background for easy slide observation.
- Constructed from translucent acrylic for easy observation, protection from light, and protection from infrared rays. (dark orange recommended for fluorescent work)
- 48mm (1.9 in) thin.
- Interlocking corners designed for stable stacking of multiple chambers. (Two 10-slide chambers stack side-by-side on a 20-slide chamber).
- Available in 10 or 20 slide capacity.
- Shaded coloring blocks protects slides from light and infrared rays.

Quality Construction

- Acrylic construction resists alcohol and acids.
- High quality rubber gasket maintains humidity for long term storage.
- Removable glass rods for easy cleaning, added flexibility.

Multi-Purpose Incubation Chamber

[An incubation chamber sheet or filter paper is spread over the bottom.]

Multipurpose Incubation Chamber, Ordering Information

Cat. NO.	Description	Color	Qty
10CG	Incubation Chamber for 10Slides 195 x 172 x 48 mm 7.7 x 6.8 x 1.9 in *	Cool Gray	1
10DO	Incubation Chamber for 10Slides 195 x 172 x 48 mm 7.7 x 6.8 x 1.9 in *	Dark Orange	1
20CG	Incubation Chamber for 20Slides 345 x 195 x 48 mm 13.6 x 7.7 x 1.9 in **	Cool Gray	1
20DO	Incubation Chamber for 20Slides 345 x 195 x 48 mm 13.6 x 7.7 x 1.9 in **	Dark Orange	1
GR10	Glass bar for 10CG, 10DO	Clear	2
GR20	Glass bar for 20CG, 20DO	Clear	2
ICS	Incubation Chamber Sheet	Black	50
