

# Anti-APP [pT668] Rabbit Polyclonal antibody Ref. 4BDX-1503S

### **Biomolecule**

Anti-APP [pT668] rabbit polyclonal antibody

# Size

40 µl

### Formulation

Rabbit serum diluted in glycerol with 0.05% sodium azide

### **Storage**

+4°C / -20°C

### **Immunogen**

Peptide

### Specificity

Anti-APP phosphorylated at threonine 668

### **Cross-reactivity**

Human, Mouse, Rat

## **Applications**

WB, IHC, IF

# • Preparation

This polyserum was obtained by immunizing a rabbit with a 12 amino acid peptide containing the phosphorylated threonine 668 (YVDAAVTPEERH). The phosphorylated threonine is underlined.

# • Specificity

Determined by its ability to recognize human APP phosphorylated at threonine 668.

# • Storage

Store at +4°C for short term use (1-2 weeks) - Store at -20°C for long term use.

# Applications

Recommended concentration of use are:

Western-blot: 1:4000 in Tris HCl pH 8.0 Tween-20 0.05% and 5% dry skimmed milk (working with cell and tissue).

IHC /IF: 1:200 in PBS with 5% BSA (working with cell, frozen and paraffin embedded tissue).

For Research Use Only V3\_1021

# • General information

Amyloid protein precursor also called APP (Gene ID: 351) is a type 1 transmembrane protein whose metabolism leads to the production of amyloid-beta peptides. In Alzheimer's disease, amyloid peptides are the main components of amyloid deposits. Phosphorylation of APP at threonine 668 is increased in Alzheimer's disease and promotes amyloid-beta peptide production. The threonine 668 is phosphorylated by CDK5 (cyclin dependent kinase 2), JNKs (c-Jun N-terminal kinases) and GSK3 (glycogen synthase kinase 3) and DYRK1A (Dual-specificity tyrosine(Y)-phosphorylation regulated kinase 1A).

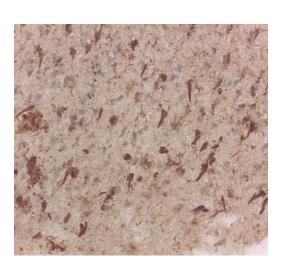

# • References

Vingtdeux V, Hamdane M, Gompel M, Begard S, Drobecq H, Ghestem A, Grosjean ME, Kostanjevecki V, Grognet P, Vanmechelen E, Buee L, Delacourte A, Sergeant N (2005). Phosphorylation of amyloid precursor carboxy-terminal fragments enhances their processing by a gamma-secretase-dependent mechanism. Neurobiol Dis. 20(2): 625-637.

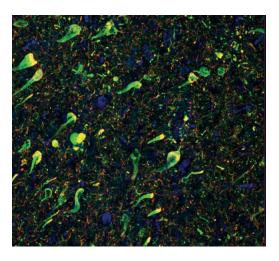

# Application examples

Western-blotting of mouse brain extracts

*Immunohistochemistry of human Alzheimer* disease brain

Immunofluorescence of human Alzheimer disease brain
