

## Anti-SPESP1 antibody, rabbit polyclonal

73-065 100  $\mu$ 1

Validation: KO mouse

**Storage:** Shipped at 4°C and aliquot and store at -20°C

Reactivity: Mouse. Not tested in other species.

Applications:

1. Western blotting (1/500~1/1,000 dilution)

2. Immunofluorescence staining (1/100~1/500)

**Immunogen:** Synthetic peptide corresponding to mouse SPESP1, MYGSNVFPEGRTSD (311-325 amino acids), conjugated with KLH

Form: Whole rabbit antiserum added with 0.1% sodium azide.

**Key words**: SPESP1, Sperm equatorial segment protein 1, Acrosome reaction, Sperm, Fetilization,

**Function:** The disruption of *Spesp1* was shown to cause an aberrant distribution of various sperm proteins. SPESP1 is necessary to produce the fully 'fusion competent' sperm.

**Molecular mass:** 44,702 with 399 amino acids. N-Glycosylated. N-terminal signal peptide (1-19) is removed in mature protein.**Database Links:** <u>uniprot/Q9D5A0</u> Mouse SPESP1

**Reference:** This antibody was described and used in the following publication...

Fujihara Y. et al. (2010) Sperm equatorial segment protein 1, SPESP1, is required for fully fertile sperm in mouse. <u>J Cell Sci.</u> 123:1531-6. **WB, IF.** Free access.

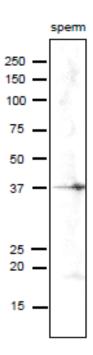

Fig. 1. Identification of SPESP1 protein in lysate of mouse sperm by western blotting with anti-SPESP1 antibody. Mouse sperm was lyzed in lysis buffer containing 1% Triton-X100 and extracts were prepared as supernatants of lysates after centrifugation. Proteins in the lysate were separated on SDS-PAGE (10~20% gradient gel) ,electro-blotted to PVDF membrane and reacted with anti-SPESP1 antibody at 1/1,000 dilution. As the second antibody, anti-rabbit IgG antibody conjugated with HRP (Abcam; ab97051) was used at 1/10,000

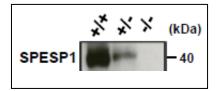

Fig.2 Dose dependent expression of SPESP1 protein in wild-type (+/+), heretoallelic (+/-) and knock-out (-/-) mouse sperm..

Primary antibody was used at 1/500 dilution and  $2^{nd}$  antibody was at 1/10,000.

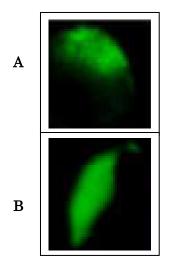

Fig.3. Immunofluorescence staining of mouse SPESP1 with anti-SPESP1 antibody.

A. Round spermatid

B. Epididymal sperm

As secondary antibody, Alexa Fluor 488 conjugated anti-rabbit IgG antibody was used.
