

Anti human RXR alpha mouse monoclonal antibody

RXR alpha: Retinoid X Receptor alpha

Code No	PP-K8508-00
Clone No.	K8508
Lot.	***
Concentration	1 mg/mL
Volume	100 uL
lg Class	G2a
Description	Retinoid X receptor alpha (RXRa; NR2B1) is a member of orphan nuclear receptor. 9-cis retinoic acid can bind to RXR. RXRa is expressed in liver, muscle, lung, kidney, intestine, heart and spleen. RXRa plays roles in a variety of processes including embryonic patterning and organogenesis, cell proliferation and differentiation. RXRs commonly function as heterodimers with other members of the nuclear receptor superfamily.

Application / Recommended Concentration

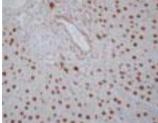

In order to obtain the best results, optimal working dilutions should be determined by each individual user.

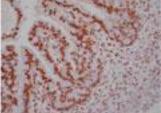

Western Blot	2 ug/mL	
Non reducing Western Blot	Not yet tested	
ELISA	0.1 ug/mL	
Immunoprecipitation	Decide by use	
Supershift Assay	Decide by use	

Chromatin immunoprecipitation Decide by use

Immunohistochemistry

10-20 ug/mL

Nomenclature	NR2B1			and the second
Genbank	X52773	-	Rat Liver Hepatocyte paraffin section	Rat Embryonic intestine Epithelial cell paraffin section
Origin	Produced in BALB/c mouse ascites after inoculation with hybridoma of mouse myeloma cells (NS-1) and spleen cells derived from a BALB/c mouse immunized with Baculovirus-expressed recombinant human RXR alpha (2-133 aa).	Storage	Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.	
Specificity	This antibody specifically recognizes human RXR alpha and cross reacts with mouse and rat RXR alpha. This antibody does not recognize human RXR beta and gamma.	Reference	Jae Mi Suh, <i>et al.</i> Mol Endocrinol, Dec. 2006, 20(12): 3412 -3420 Jun Qin, <i>et al.</i> Developmemtal Dynamics, 2007, 236: 810-820	
Purification	Ammonium sulfate fractionation	-		
		Notes		vith lead and copper plumbing
Formulation	Physiological saline with 0.1% NaN3 as a preservative.		to form explosive metal azides. Flush with large amounts of water during disposal.
