

## Anti human LXR alpha Ligand Binding Domain mouse monoclonal antibody

LXR alpha: Liver X Receptor alpha

Code No	PP-PPZ0412-00
Clone No.	PPZ0412
Lot.	***
Concentration	1 mg/mL
Volume	100 uL
lg Class	G2a
Description	Liver X receptor alpha (LXRa, RLD-1; NR1H3) is a member of orphan nuclear receptor. LXRa activator is

the naturally occurring compound 22(R)-hydroxycholesterol (22(R)-HC), 20(S)HC, 24-HC, 25-HC, 7a-HC. LXRa is expressed in the liver, kidney and spleen. LXRa has important role in regulating cholesterol metabolism. It is believed that LXR specific agonist may have important medical applications in the regulation of cholesterol homeostasis. LXRa forms heterodimer with RXR.

Produced in BALB/c mouse ascites after inoculation with hybridoma of mouse myeloma cells (NS-1) and

immunized with E.coli-expressed recombinant human

This antibody specifically recognizes human LXR alpha and cross reacts with mouse and rat LXR

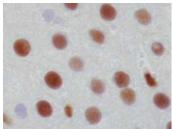

alpha. This antibody does not recognize human LXR

spleen cells derived from a BALB/c mouse

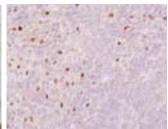

Application	/ Recommended	Concentration

In order to obtain the best results, optimal working dilutions should be determined by each individual user.

Western Blot	1 ug/mL
Non reducing Western Blot	Not yet tested
ELISA	0.2 ug/mL
Immunoprecipitation	Decide by use
Supershift Assay	Decide by use
Chromatin immunoprecipitatio	on Decide by use

Immunohistochemistry

Rat Liver Hepatocyte, Kupffer cell paraffin section

Rat Spleen Macrophage paraffin section

#### Storage

Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.

20-40 ug/mL
