

## Anti Dioxin Monoclonal Antibody

**Cat. No. YII-YM010-EX      Lot No. 5A12B5170531**

**Description:** This antibody was raised in a mouse by immunization with porcine thyroglobulin (pTG) conjugate of Dioxin. The product vial contains 1 mg purified IgG<sub>1</sub> of the titled antibody obtained by lyophilizing its 0.01MPBS (pH 7.2, 1 mL) solution without preservative. It can be used for immunoassay or any other immunoreaction with dioxin (2,3,7,8-Tetrachlorodibenzo-*p*-dioxin).

**Immunogen:** 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin-pTG-conjugate      **Host:** Mouse  
**Isotype:** IgG<sub>1</sub> (Protein A purified)

**Product Form:** Lyophilized      **Size:** 1 mg/vial

**Reconstitution:** Reconstitute the product with 1 mL distilled water to make 1 mg/mL stock solution of 0.01M PBS. If it is stored in a refrigerator, add moderate antiseptic to the solution (e.g. NaN<sub>3</sub> 0.1%).

**Storage:** The product will be stable for over one year if it be stored at -20°C to -80°C until opened. Upon reconstitution, the antibody solution must be stored at 2°C to 8°C and used within one month. Repeated freezing-thawing should be avoided.

**Suggested Working Dilution Range:** Optimal dilution should be determined by each laboratory for each application.
