

Recombinant Tetronarce californica Acetylcholine receptor subunit alpha (CHRNA1), partial

Product Code	CSB-EP005386TOT
Relevance	After binding acetylcholine, the AChR responds by an extensive change in conformation that affects all subunits and leads to opening of an ion-conducting channel across the plasma membrane.
Abbreviation	Recombinant Torpedo californica CHRNA1 protein, partial
Storage	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
