

Recombinant Human Zinc finger protein 175 (ZNF175)

Product Code	CSB-EP026556HU
Relevance	Down-regulates the expression of several chokine receptors. Interferes with HIV-1 replication by suppressing Tat-induced viral LTR promoter activity.
Abbreviation	Recombinant Human ZNF175 protein
Storage	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.

Reconstitution

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.

Shelf Life
