

Recombinant Clostridium botulinum C phage Main hemagglutinin component type C (HA-33)

Product Code	CSB-EP338424CLQ
Relevance	Protects the structural integrity of the neurotoxin; may increase internalization of the neurotoxin into the bloodstream of the host. Involved in binding to the small intestine through interactions with glycolipids and glycoproteins containing sialic acid moieties.
Abbreviation	Recombinant Clostridium botulinum HA-33 protein
Storage	The shelf life is related to many factors, storage state, buffer ingredients, storage temperature and the stability of the protein itself. Generally, the shelf life of liquid form is 6 months at -20°C/-80°C. The shelf life of lyophilized form is 12 months at -20°C/-80°C.
