Based on the SEQUEST from database of E.coli host and target protein, the LC-MS/MS Analysis result of CSB-EP809009HU could indicate that this peptide derived from E.coli-expressed Homo sapiens (Human) FAM217A.

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference.
